

**Amendments to the Specification:**

Please replace the section entitled "Statement Regarding Sequence Listing" at page 1 with the following redlined section:

The Sequence Listing associated with this application is provided in text format in lieu of a paper copy, and is hereby incorporated by reference into the specification. The name of the text file containing the Sequence Listing is 910180\_40102USPCa\_SEQUENCE\_LISTING.txt. The text file is ~~1293-1304~~ KB, was created on ~~February 26~~ March 20, 2009, and is being submitted electronically via EFS-Web, ~~concurrent with the filing of the specification.~~

Please replace the first full paragraph at page 86 with the following redlined paragraph:

**Figure 1** shows DNA and deduced amino acid sequences [SEQ ID NOS:~~688-27~~ and ~~689-28~~] of 2H7scFv-Ig, a binding domain-immunoglobulin fusion protein capable of specifically binding CD20.

Please replace the second full paragraph at page 265 with the following redlined section:

This construct has a 2H7 (anti-CD20) single chain Fv binding region as described in Example 1. This binding region is attached to a wild type human IgG1 connecting region (CCC-P) as described in Example 1. This connecting region is attached to wild type human IgG1 CH2 and CH3 constant regions as described in Example 1. This construct has previously been referred to as 2H7 scFv Ig WTH (CCC) WTCH2CH3, 2H7 scFv IgG WTH WTCH2CH3, and 2H7 scFv-Ig, which both have the same sequence as the above construct. The polynucleotide sequence is provided in SEQ ID NO:~~688-27~~, and the encoded polypeptide sequence is provided in SEQ ID NO:~~689-28~~.
